The order sends the troops from border as soon as transportation can be arranged for them and will move all the others including those from North Carolina as soon as they are properly decided on their action because the troops are restive in camp and there seemed to be no stimulus to recruiting while there was no prospect of movement to the border They now expect most of the regiments will be filled before the troops leave.

TOXAWAY DAM GONE:

FLOOD SWEEPS VALLEY.

Fertile South Carolina Valley. Asheville.-The great dam at Lake Toxaway, 50 feet high, 400 feet in width and holding back waters that covered 550 acres of land in the Toxaway region, 38 miles from this city, crumpled and went out with a roar at 7:10 o'clock Sunday night, and at midtoward South Carolina cities, their path including Walhalla, Anderson, Carolina points from this city and Greenville, S. C.

According to long distance message from Toxaway, the entire dam, built of earth and stone, seemed to melt before the rush of waters within a few minutes. The initial opening in the dam, caused, it is believed, by the seeping of a natural spring at the base, was not longer than a railway coach.

The dam, built in 1902, at a cost of \$38,000, was constructed at a point where the hills are not more than 400 feet apart. The Toxaway country is known as the "beautiful sapphire section" in tourist circles. The lake and the hotel, named after the section, were built in 1902 by a party of Pittsburg capitalists.
